Action of the Manhattan Municipal League in Attacking Mayor Low's Administration on the Ground of Extravagance **Brings Great Joy to Tammany**

IT IS REGARDED AS THE HARDEST JAR YET.

Committee on Taxation of the League Will Prepare a Report Showing How Money Is Alleged to Have Been Spent Too Lavishly.

Now charper than a corpont's tooth it to

The spectacle of reformers jumping on the reform administration with wiger and circumstance was presented last night when the Manhattan Municipal League passed resolutions denouncing the extravagant policy of Mayor Low. The Manhattan Municipal League, he it known, is not a Tammany organization. In its membership are included men like William C. Whitney, Franklin Bartlett, Robert B. Roosevelt, Jefferson Levy, Andrew H. Green, Col. George R. Lyer and James W. Gerard. The erganization was prompted by what its members believe to be a condition of unwarranted lavishness in the administration of the affairs of the city. Evidently the Manhattan Municipal

League falls to see the advantages of a tax rate of 1.42. At the meeting held in the Savoy Hotel the administration was charged with: Increasing the valuation on

real property \$1,400,000,000. Increasing the expenses of the city for 1903 over 1902 by over \$2,500,000 instead of carrying out promises of economy.

Procuring legislation enabling the expediture of the surplus of sinking fund, amount-ing to \$9,000,000, for current

Increasing the debt limit by \$140,000,000 and arranging to issue bonds and increase the city's debt by a large percentage of this sum.

This appeared to the Manhattan Municipal League sufficient grounds to warrant action, so a committee on taxation was appointed to prepare a report upon city taxation and expenditure for the information of taxpayers and rentpayers. The members of the Committee on Taxation are Franklin Bartlett, Robert E. Dowling, George Ehret, Robert B. Roosevelt and George W. Young. The report to be prepared by these gentle-men will be printed and circulated in such a manner as to procure the widest publicity. An executive committee for the purpose of carrying out the objects of the organization was also appointed, and the Chairman was empowered to

methods of regulation of all the departments of the city government. Hardest Jar Yet.

appoint standing committees to investi-

This action on the part of the Manhardest jar the reform administration has had handed out to it thus far. Charles F. Murphy, the leader of Tammany Hall, was wrapped in smiles when he read the report of the meeting. Mr. Murphy said that when the very men who were most active in securing the election of Seth Low voluntarily get together for the purpose of condemning his administration it is a sign that the said administration has not made good. All of this comes right on top of the embarrassing position in which Police Commissioner Greene is placed because of his former association with the Asphalt Trust. The Police Commissioner and Gov. Odell are out in the wild and woolly West hunting grizzlies and things, but the asphalt business can wait until they return.

The Commissioner, with others, is sued for something like \$24,000,000. which, it is alleged, they owe the credflors of the Asphalt Trust for stock sold to them and not fully paid for. In the manipulation of the affairs of the trust previous to the time it exploded it is charged by the receiver that Gen. Greene profited to the extent of over \$1,000,000.

Many Opposed to Greene.

When Mayor Low appointed Commis-sioner Greene he went against the wishes of some of his political advisers, who knew that there were newspapers in Philadelphia which had called the Asphalt Trust manipulation a plain

The little matter of a \$70,000 house for a \$2,000 employee on the Croton Reserwoir work, of a rug for the Mayor's office costing \$1,000 and selected by the agunicipal Art Commission, of airy consection respecting the expenditure of Library of favoritism toward the Governor of the State in renting his steamboat company a pier—all of these and company a pier-all of these and more have been taken up by ifies of the administration. Tammany alf a literary bureau is working overting, condensing and arrangpoints to be used in the fall camis and the keynote of the Tammany is is to be the incompetence and avagance of the policy of Mayor That the assistance of such a as the Hanhattan bijuncipal abould intervene is to Tames source of the deepest gratifica"Get the Habit."
